Creating an Advanced Billing Document (BME)

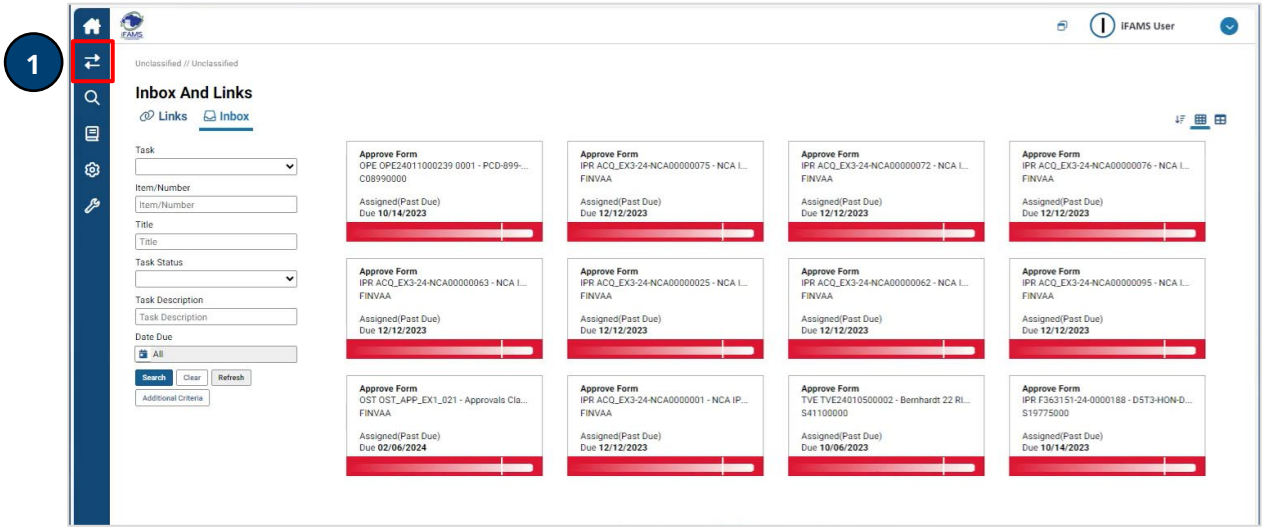
Advanced Billing Document (BME): A BME is a billing document that has either been manually created within iFAMS or has been converted from FMS.

Section 1: Create a BME Transaction

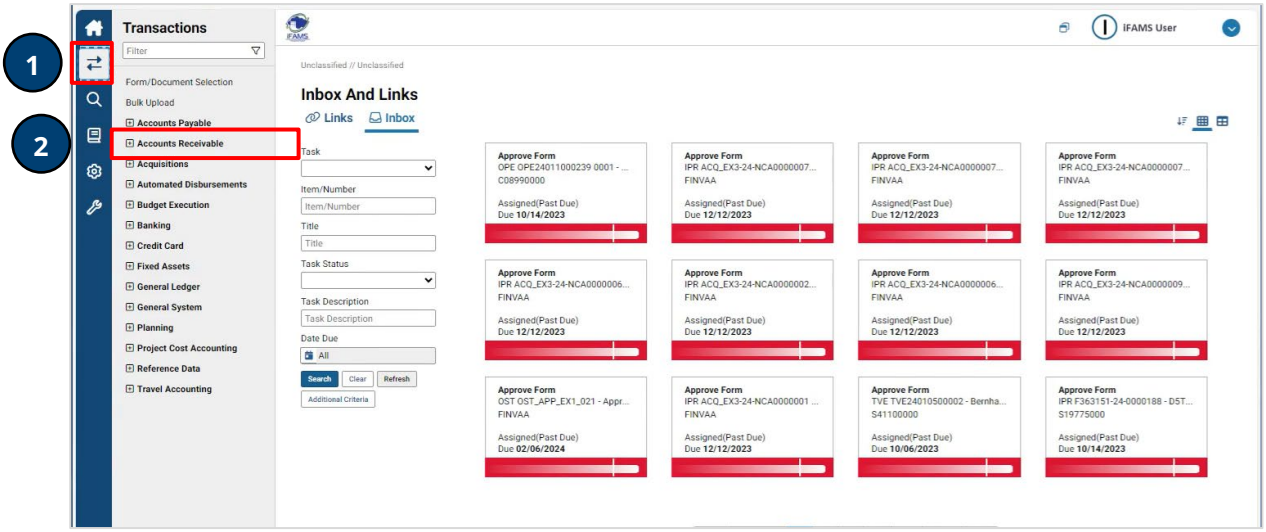
To create a BME transaction in iFAMS, follow the steps below.

Section 1: Create BME Transaction

1. Navigate to the Transactions Tab.

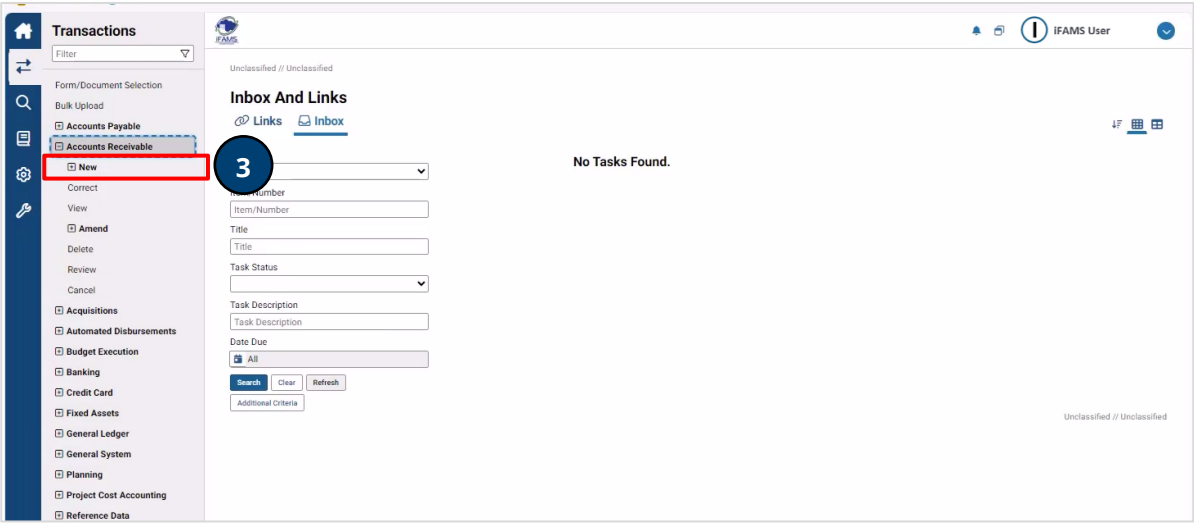


2. Click on the "Accounts Receivable" option in the menu.

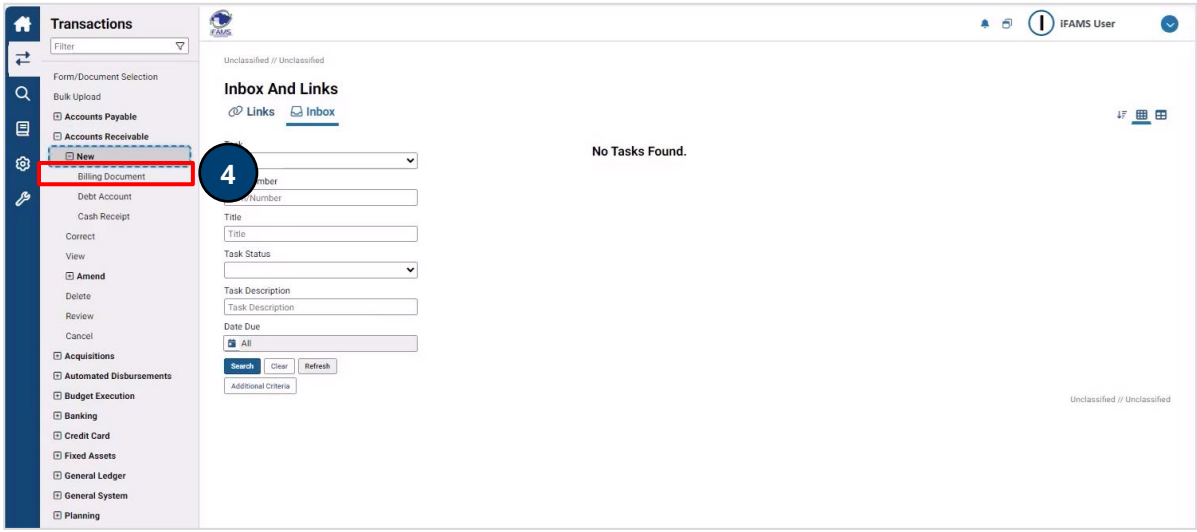


Section 1: Create BME Transaction

3. Select “New” from the submenu list.

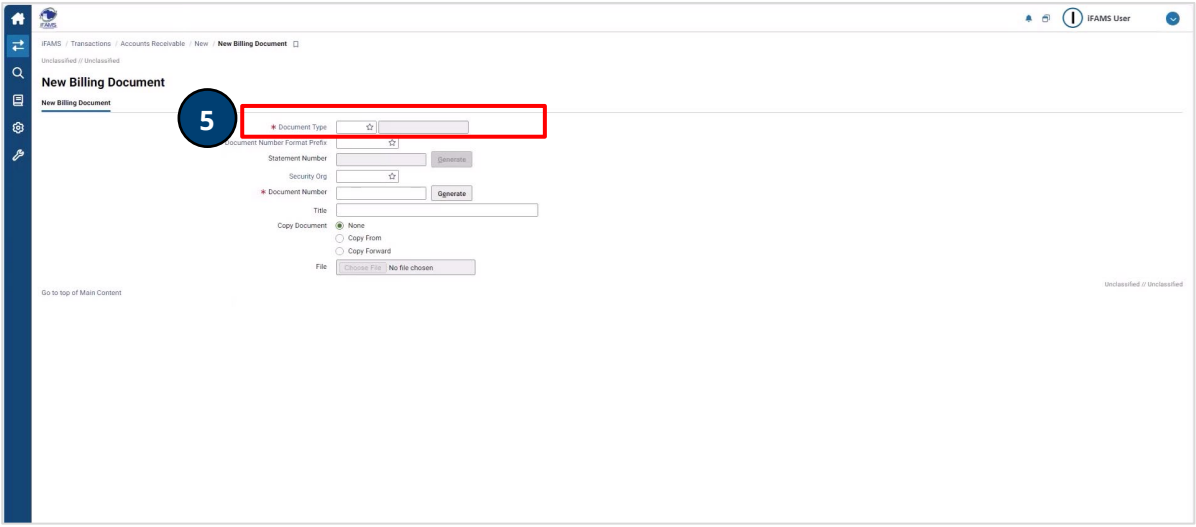


4. Select “Billing Document” button.

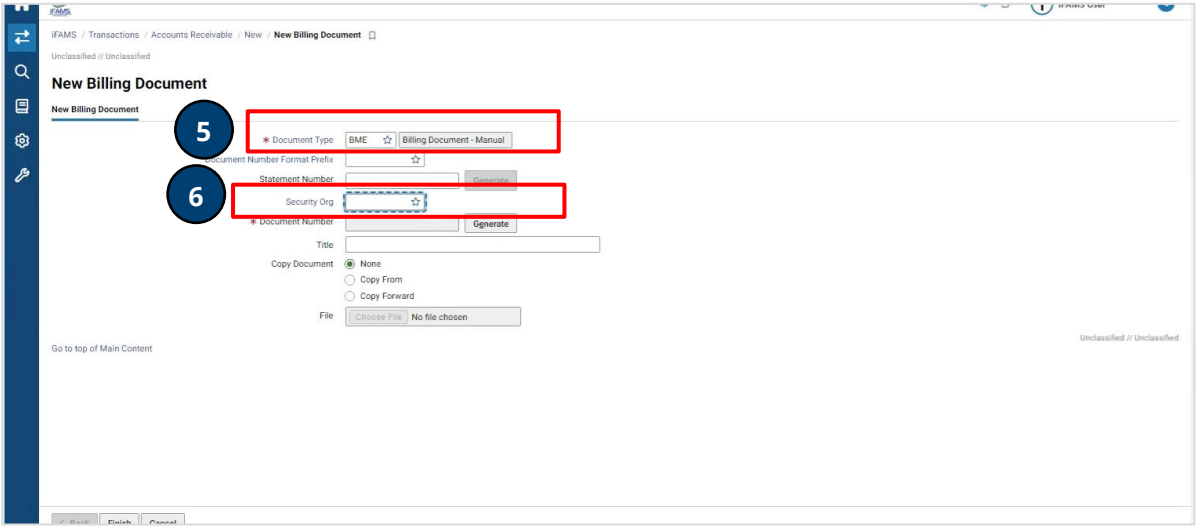


Section 1: Create BME Transaction

5. In the Document Type field, enter: “BME”

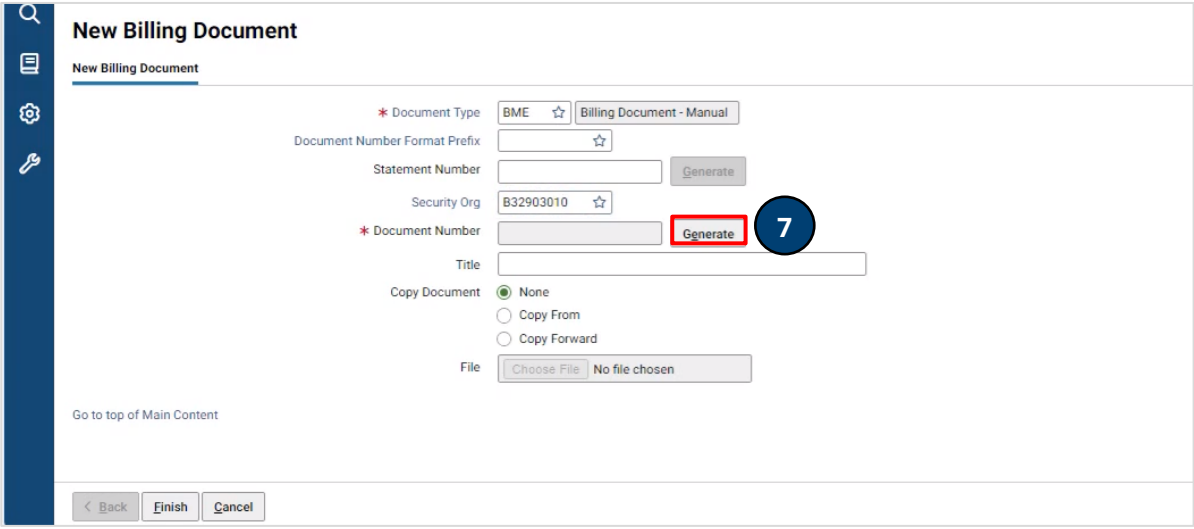


6. Enter in the Security Organization: “B32903010”

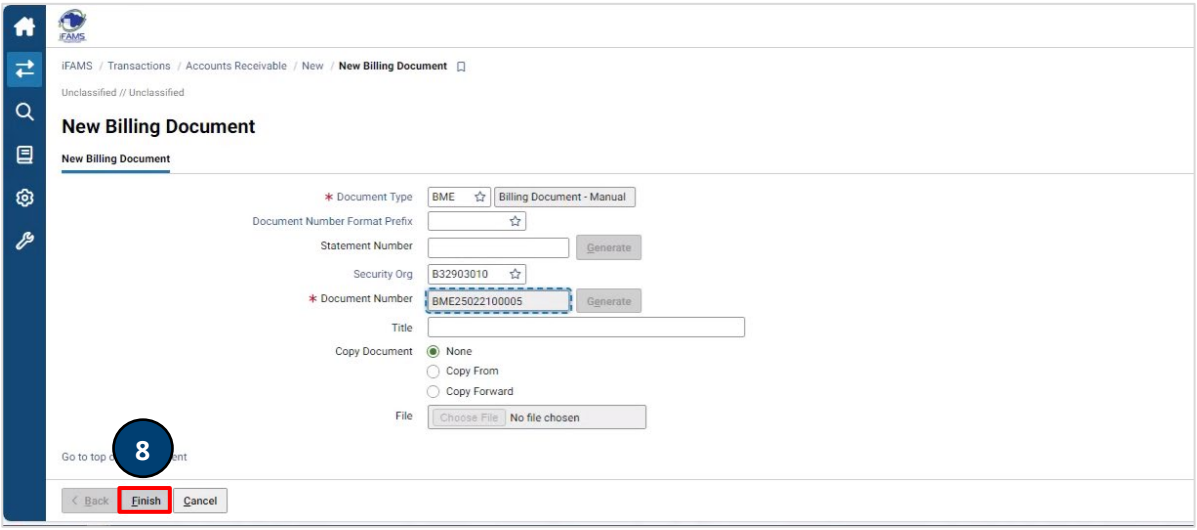


Section 1: Create BME Transaction

7. Click the “Generate” button.



8. Click the “Finish” button.

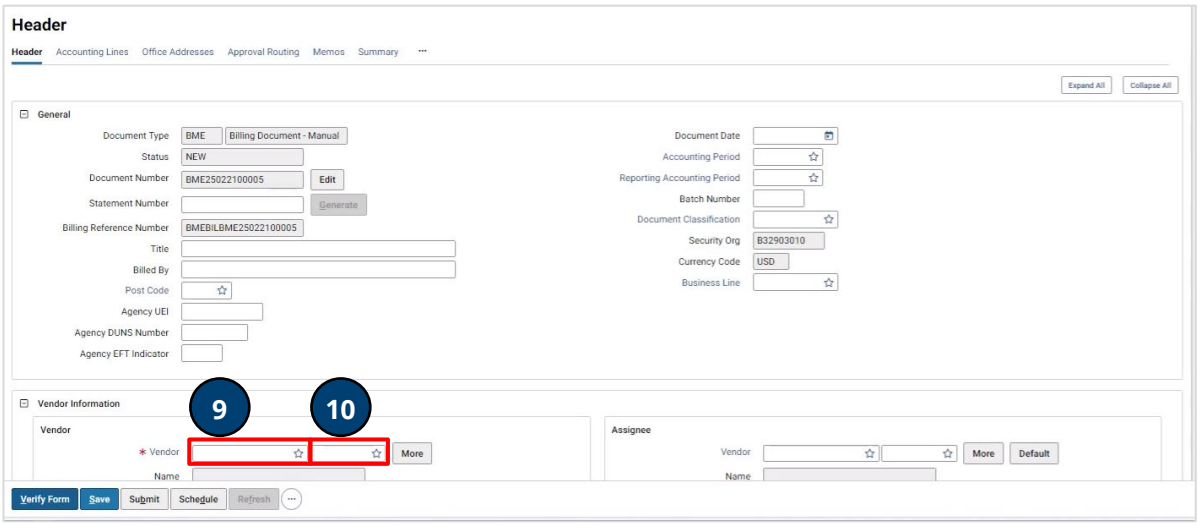


Section 2: Create a BME Header

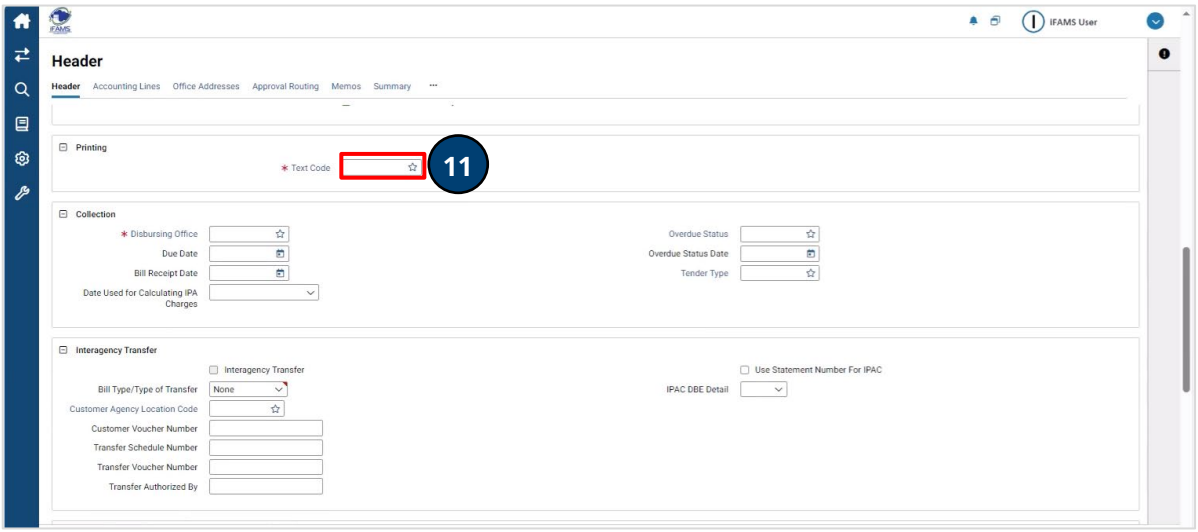
To create an BME header in iFAMS, follow the steps below.

Section 2: Create an BME Header

9. Enter in the Vendor Code in the first box: “M00001565”
10. Enter in the Vendor Code in the second box: “EX0001”

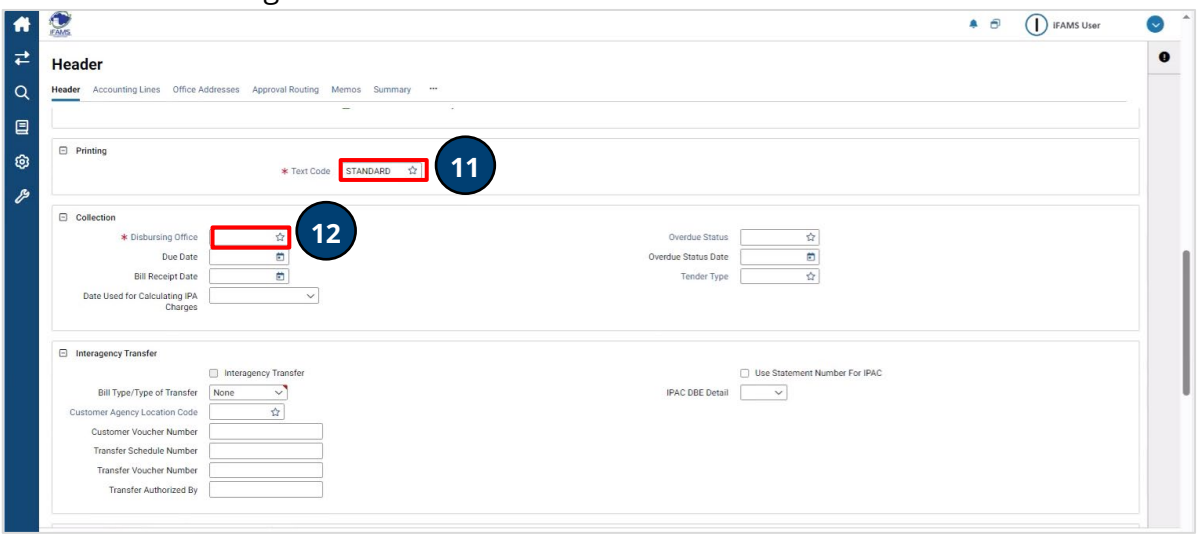


11. Enter in the Text Code: “STANDARD”

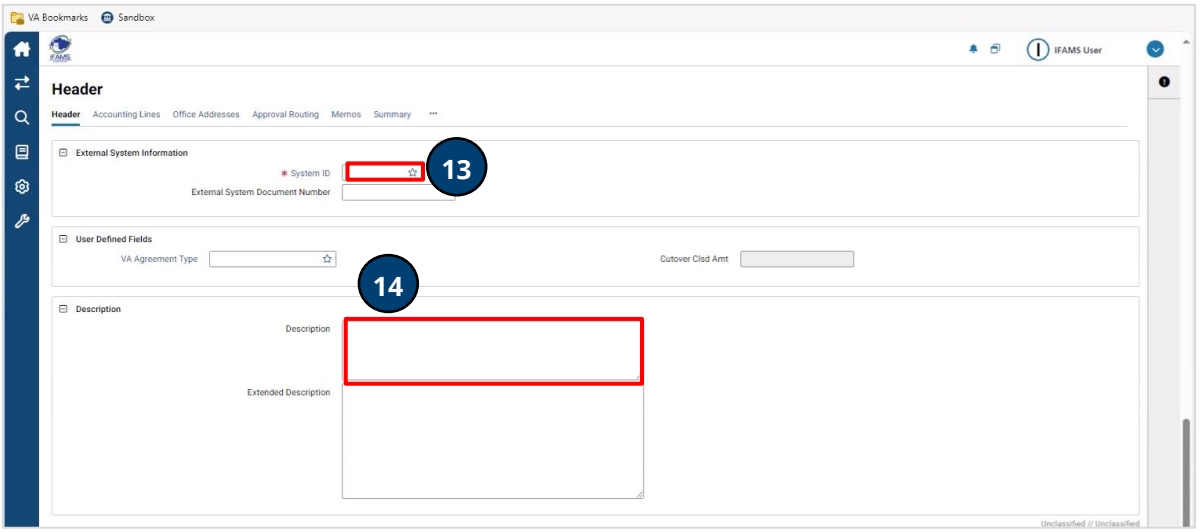


Section 2: Create an BME Header

12. Enter the Disbursing Office: “VA”



13. Enter in the System ID: “Manual”
14. Enter in the Description: “FEHB Debt”



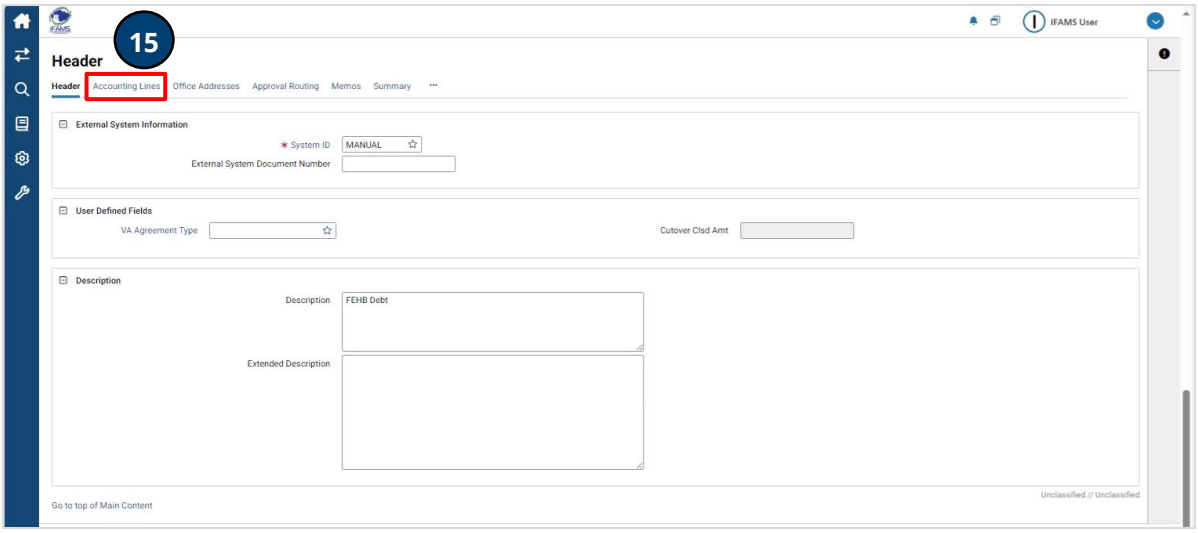
For the “Description” entry field, refer to your local office to get specifics as to what is required to enter here. For this example, we are using “FEHB Debt.”

Section 3: Create Accounting Lines

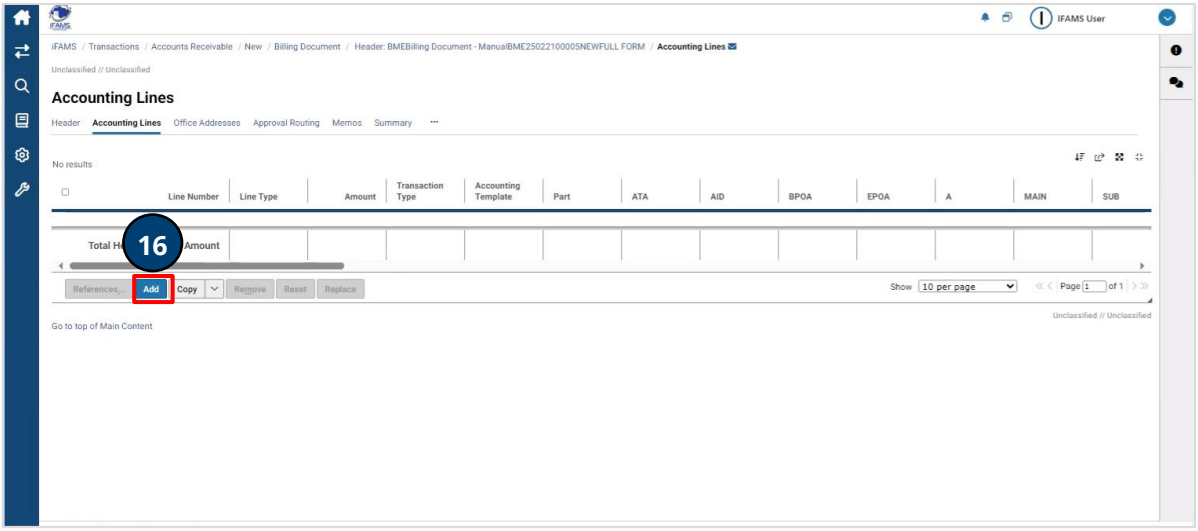
To create BME accounting lines in iFAMS, follow the steps below.

Section 3: Create Accounting Lines

15. Click on the “Accounting Lines” Subtab.



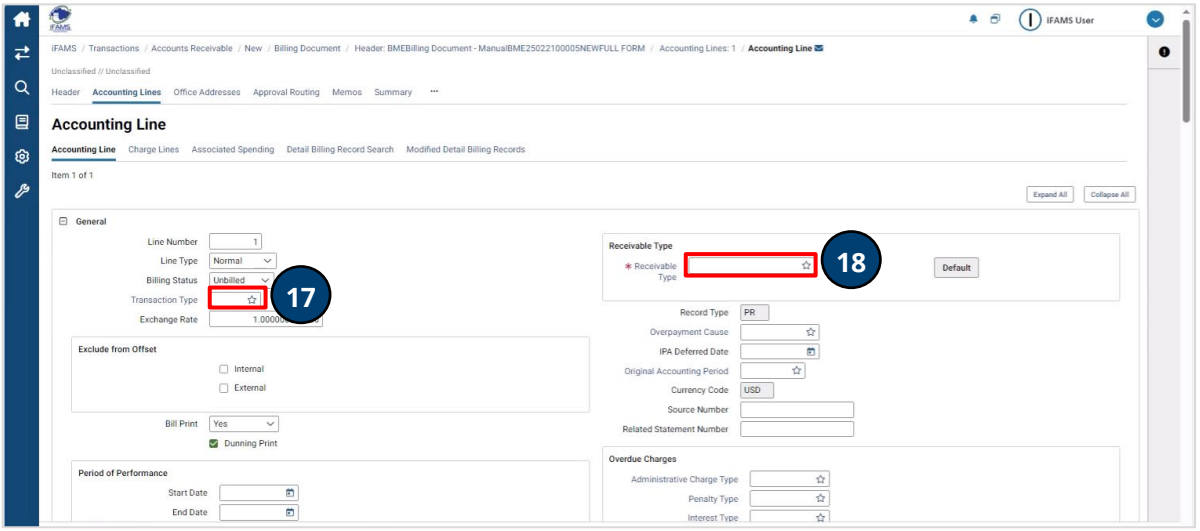
16. Click the “Add” button.



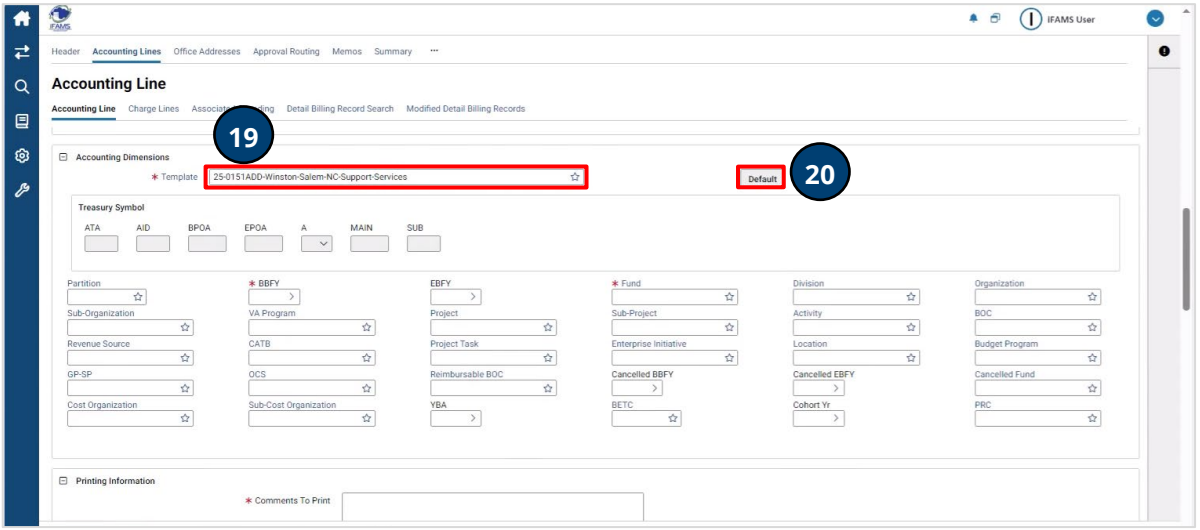
17. Enter the Transaction Type: “GF”

Section 3: Create Accounting Lines

18. Enter the Receivable Type: “EMP”

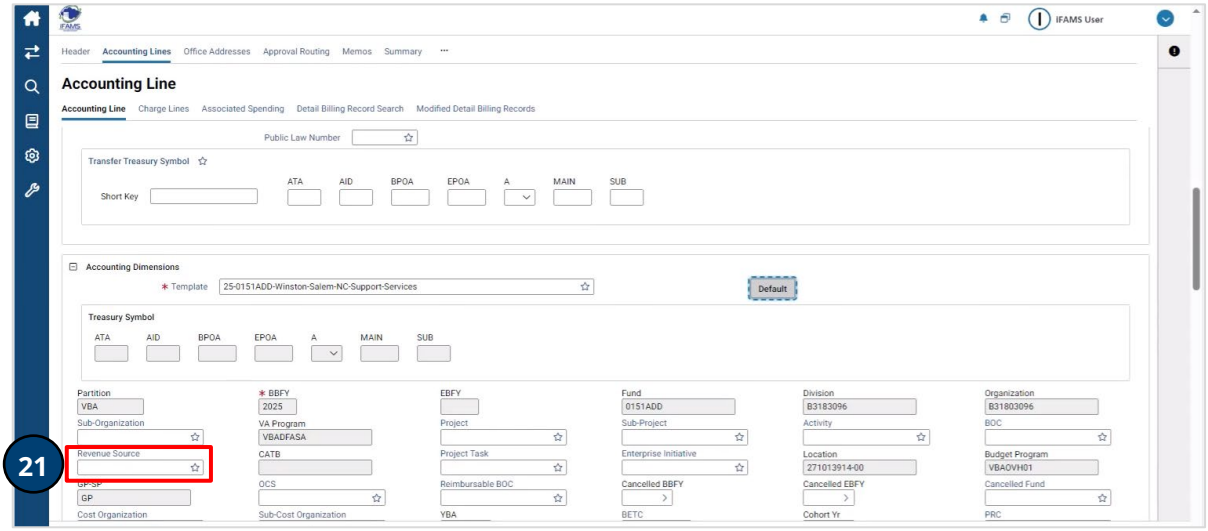


19. Enter in the Template: “25-0151ADD-Winston-Salem-NC-Support-Services”
20. Click the “Default” button.

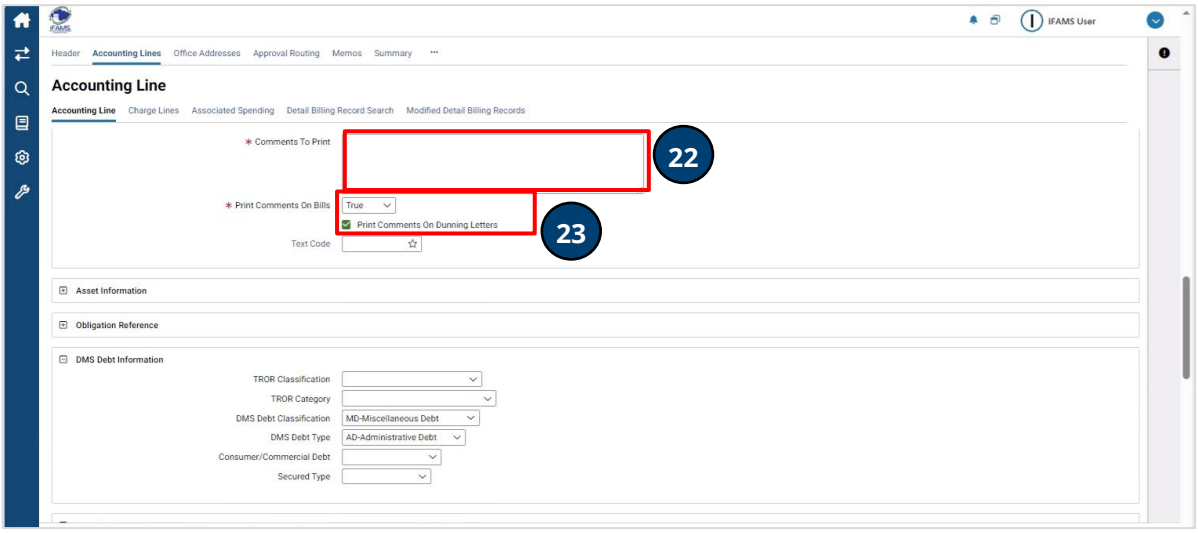


Section 3: Create Accounting Lines

21. Enter in the Revenue Source Code: “920N02”

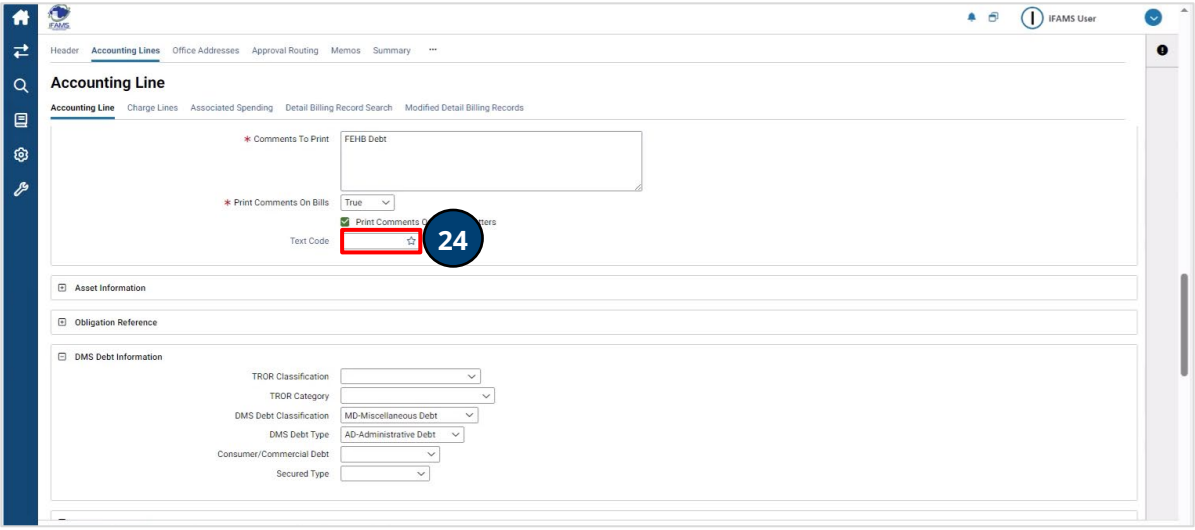


22. Enter in the Comments to Print: “FEHB Debt”
23. Ensure that “Print Comments” and “Dunning Letters” are both set to True.

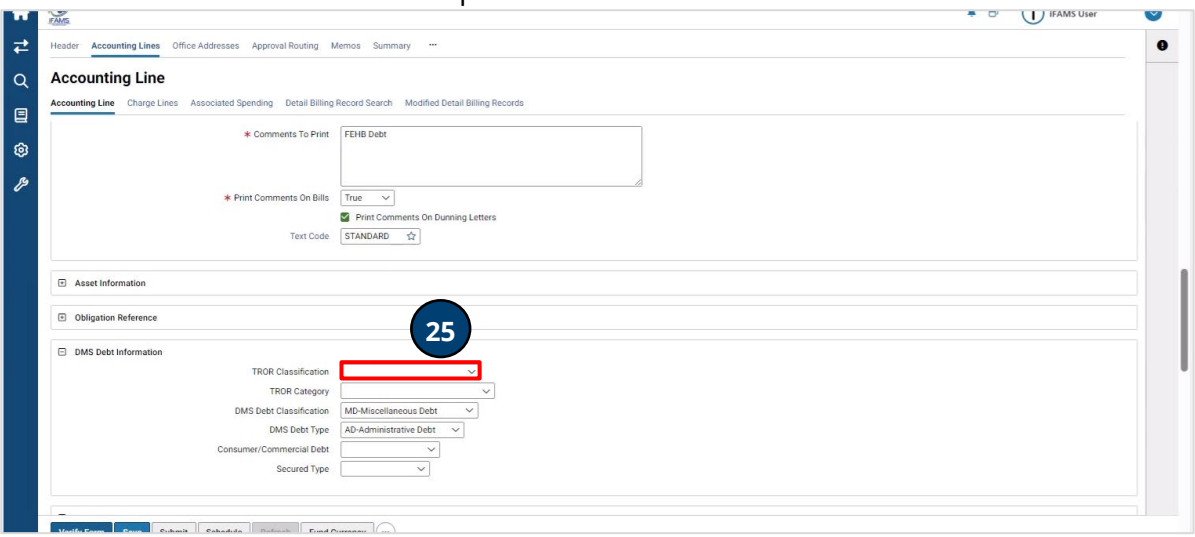


Section 3: Create Accounting Lines

24. Enter in the Text Code: STANDARD

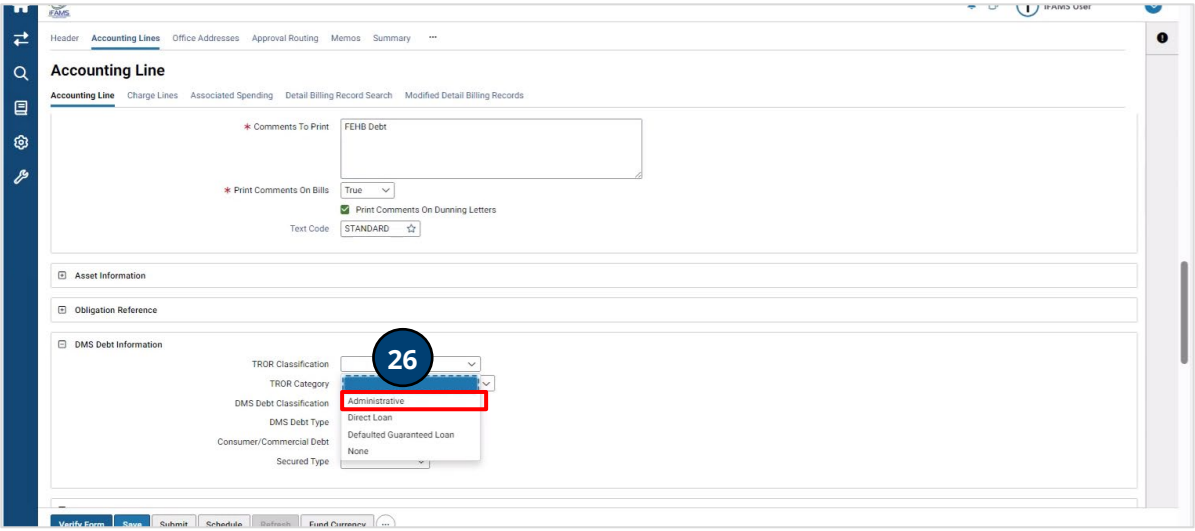


25. Click the "TROR Classification" drop-down.

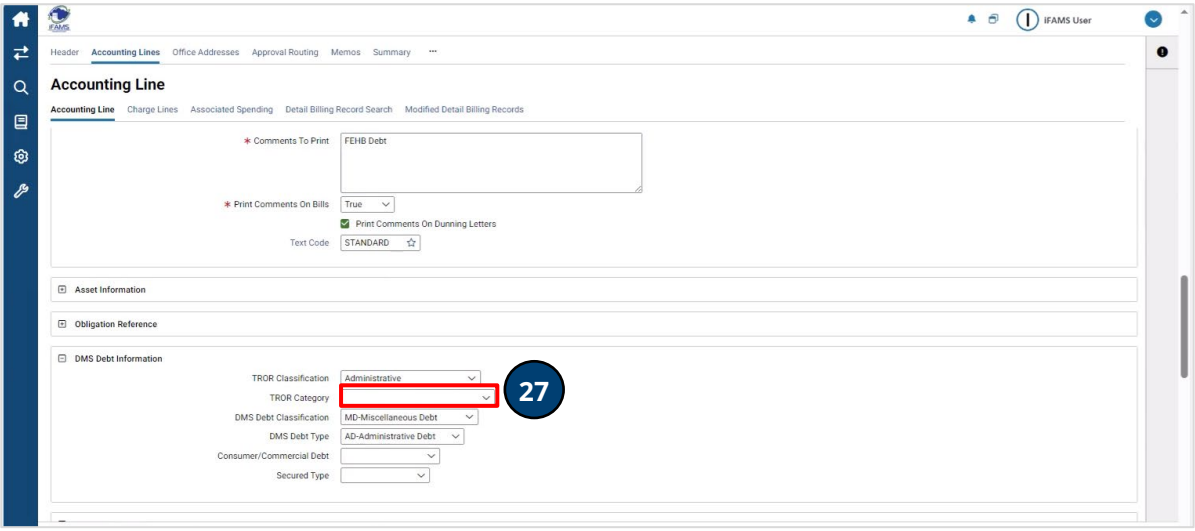


Section 3: Create Accounting Lines

26. Select “Administrative” for the TROR Classification.

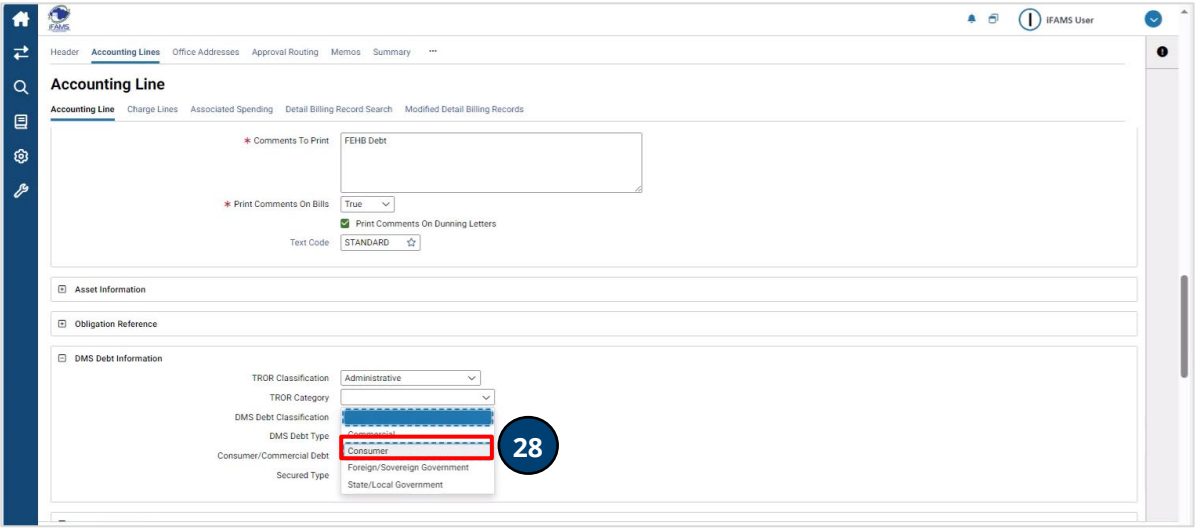


27. Click the “TROR Category” drop-down.

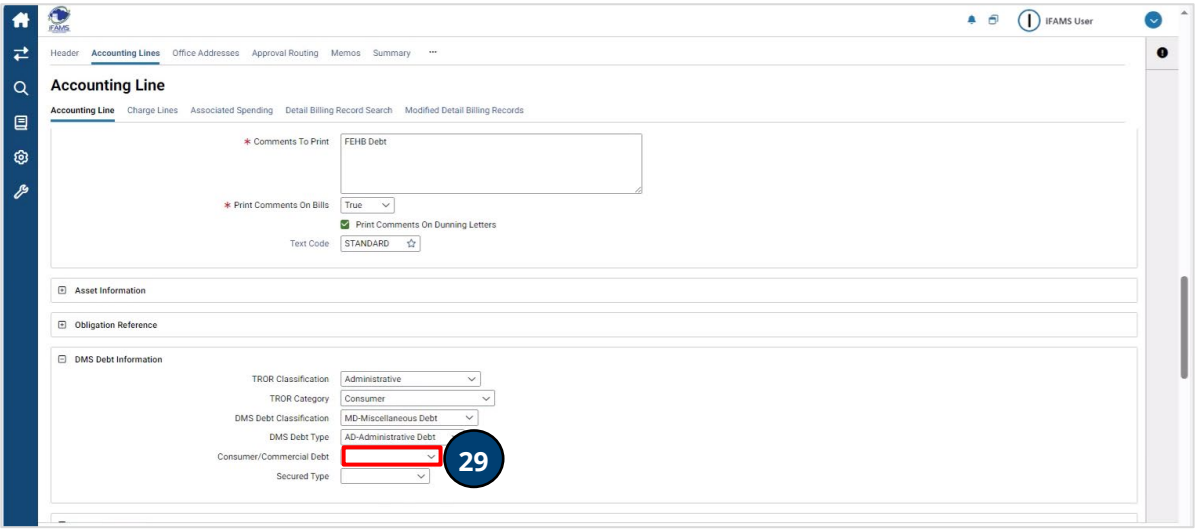


Section 3: Create Accounting Lines

28. Select “Consumer” for the TROR Category.

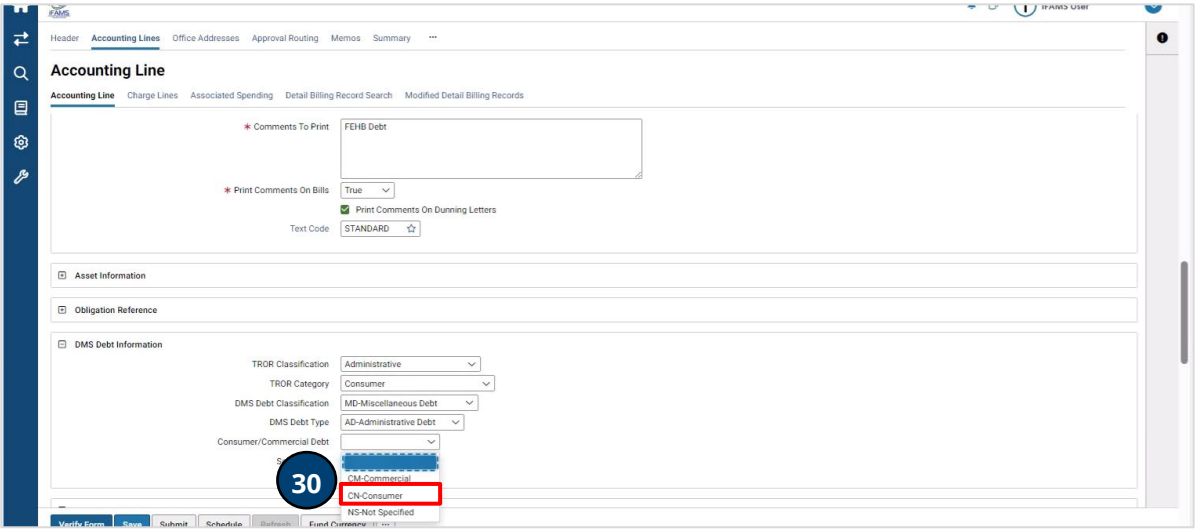


29. Select the “Consumer/Commercial Debt” drop-down.

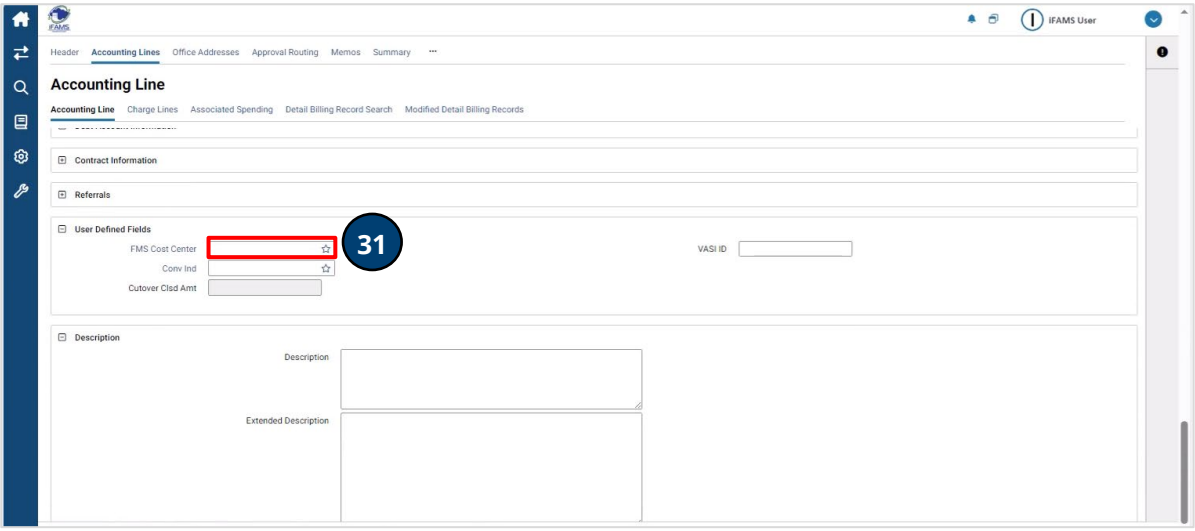


Section 3: Create Accounting Lines

30. Select ”CN-Consumer” for the Consumer/Commercial drop-down.



31. Enter in the FMS Cost Center: “304000”

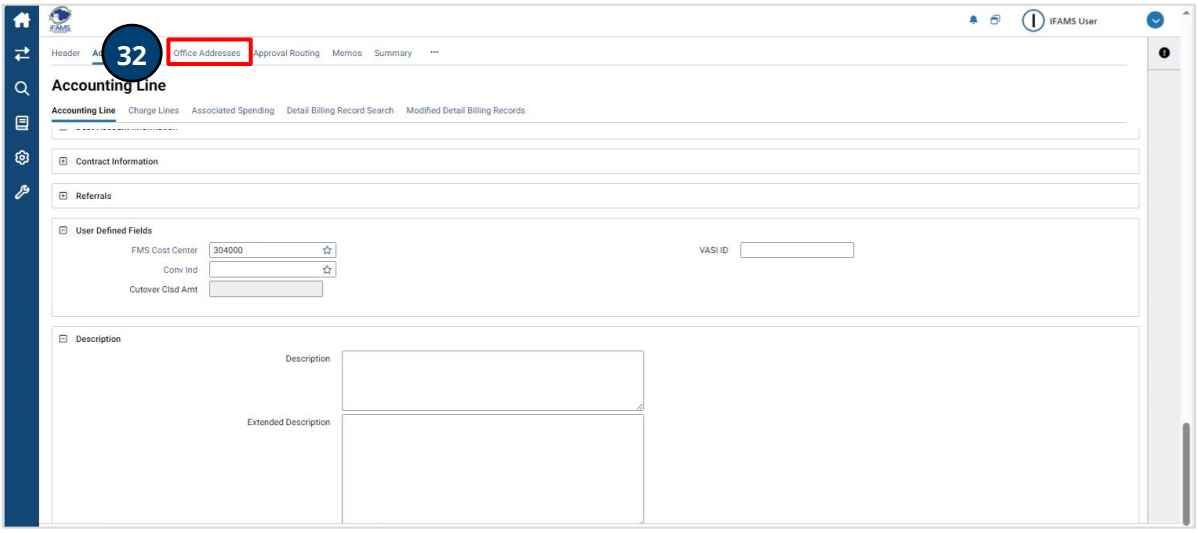


Section 4: Create Office Address

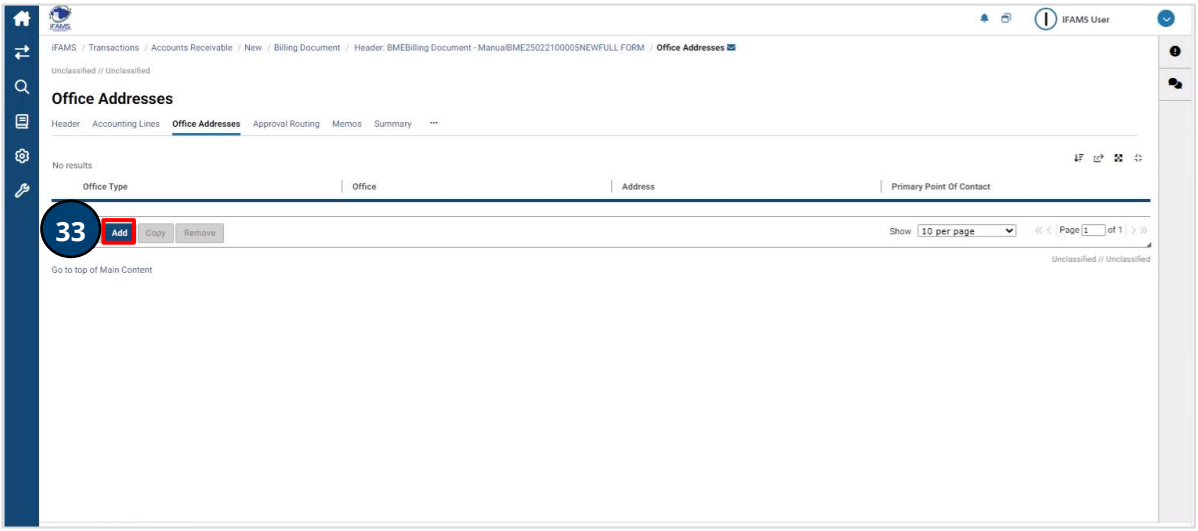
To create an Office Address in iFAMS, follow the steps below.

Section 4: Create Office Address

32. Click the “Office Addresses” tab.

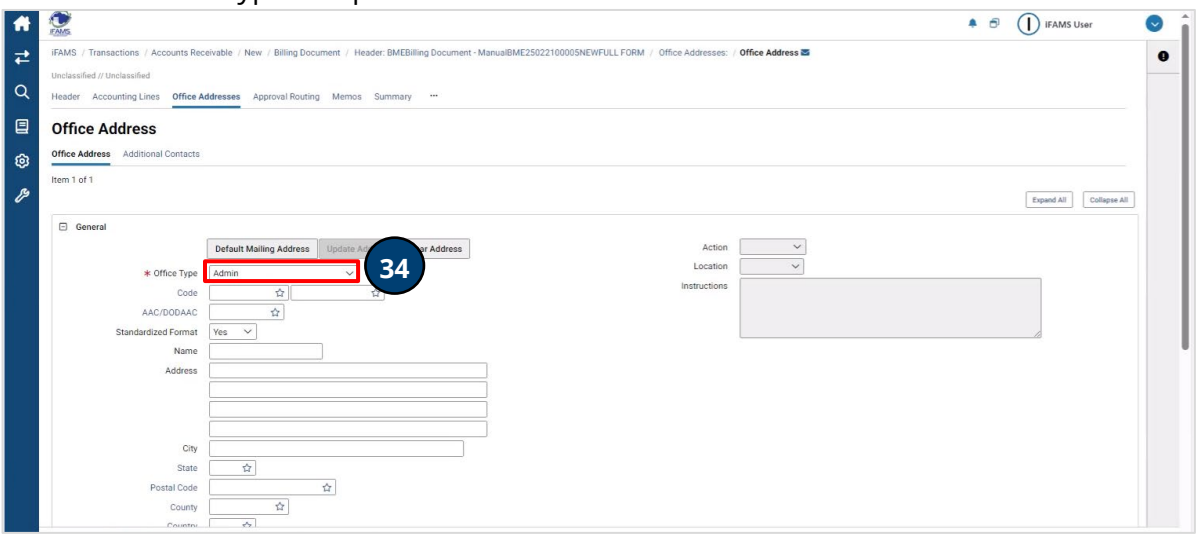


33. Click the “Add” button.

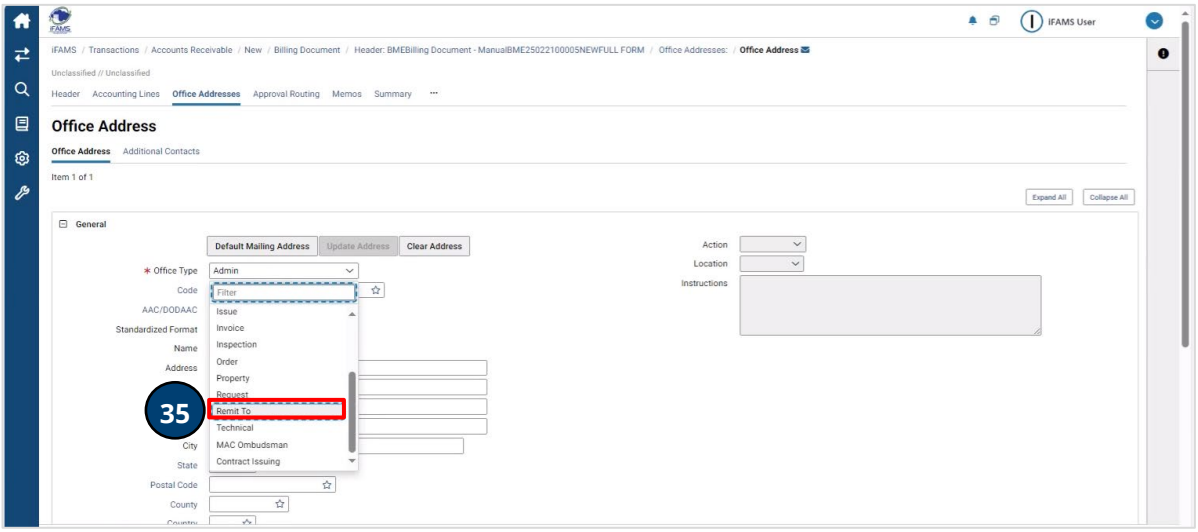


Section 4: Create Office Address

34. Click the “Office Type” drop-down.



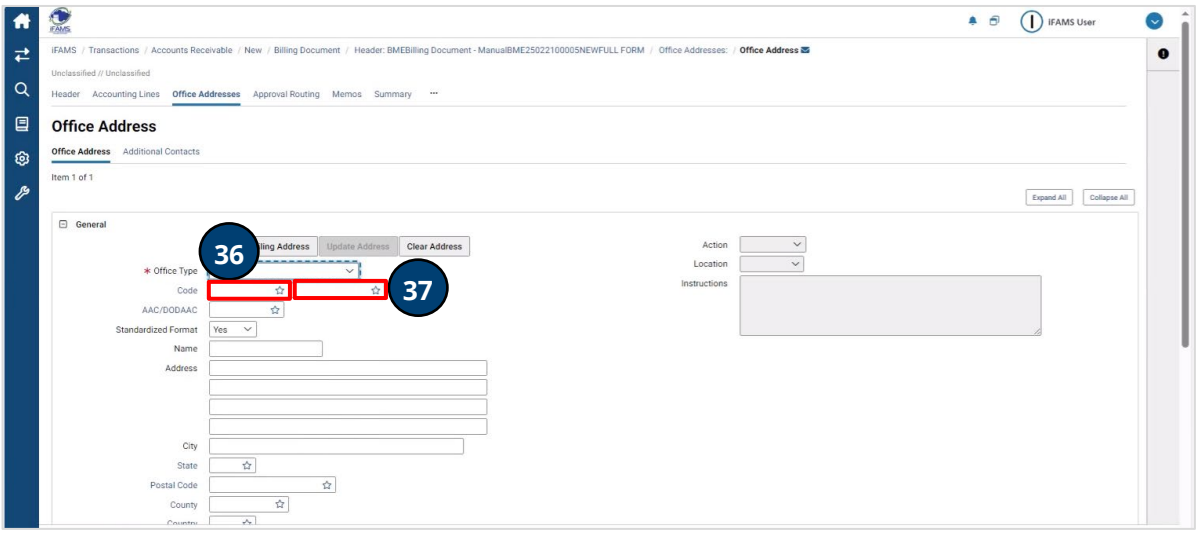
35. Select “Remit To” for Office Type.



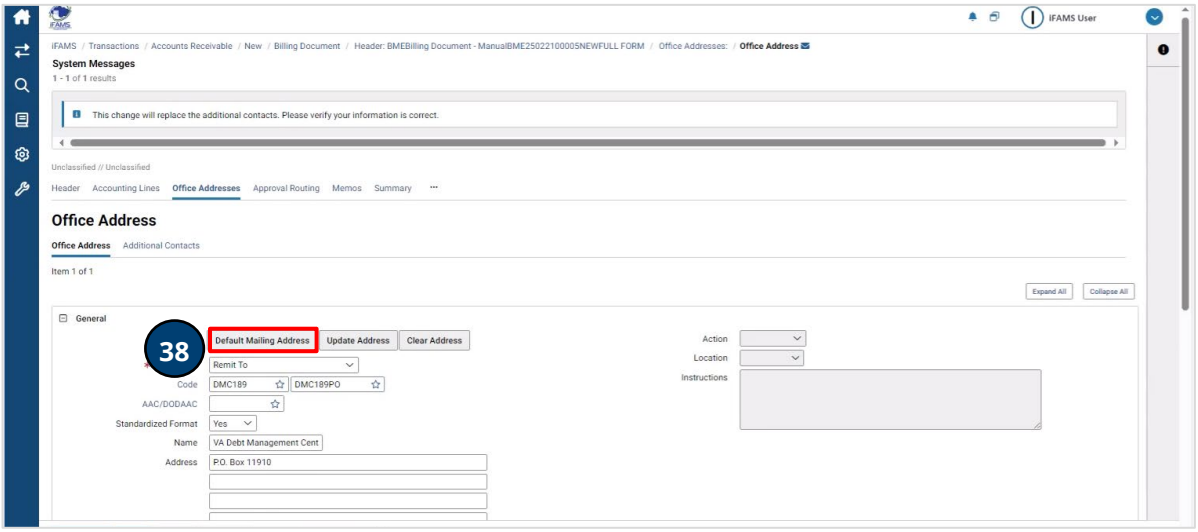
36. Enter in the Code in the first box: “DMC189”

Section 4: Create Office Address

37. Enter in the Code in the second box: “DMC189PO”

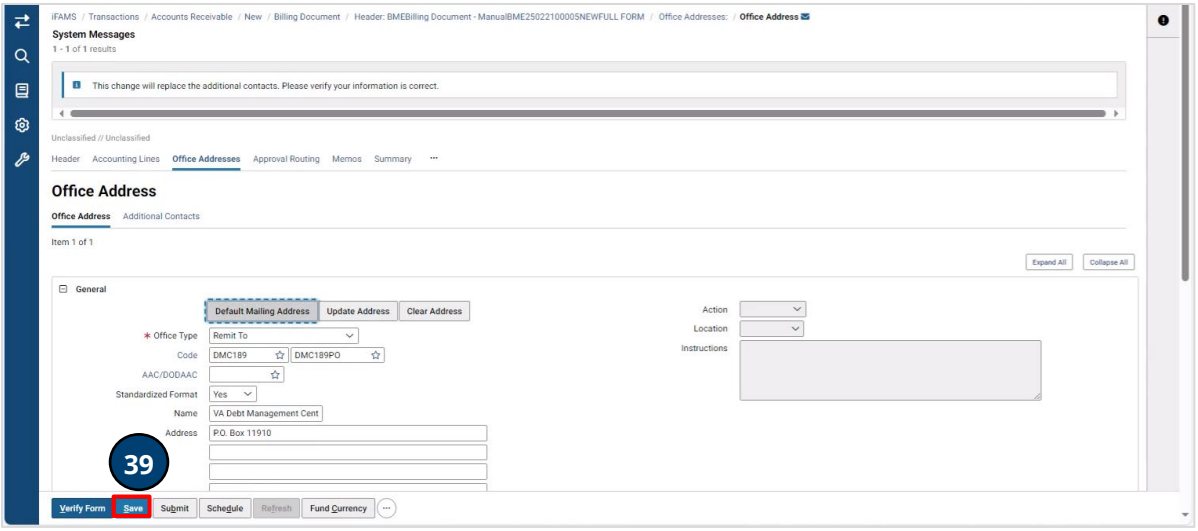


38. Click the “Default Mailing Address” button.



Section 4: Create Office Address

39. Click the “Save” button.

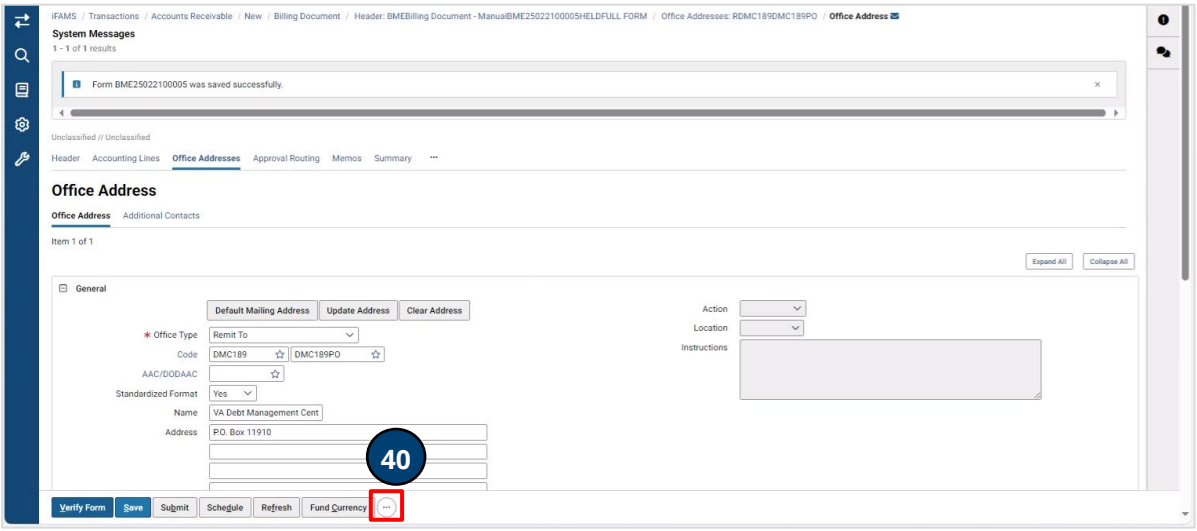


Section 5: Complete the BME Transaction

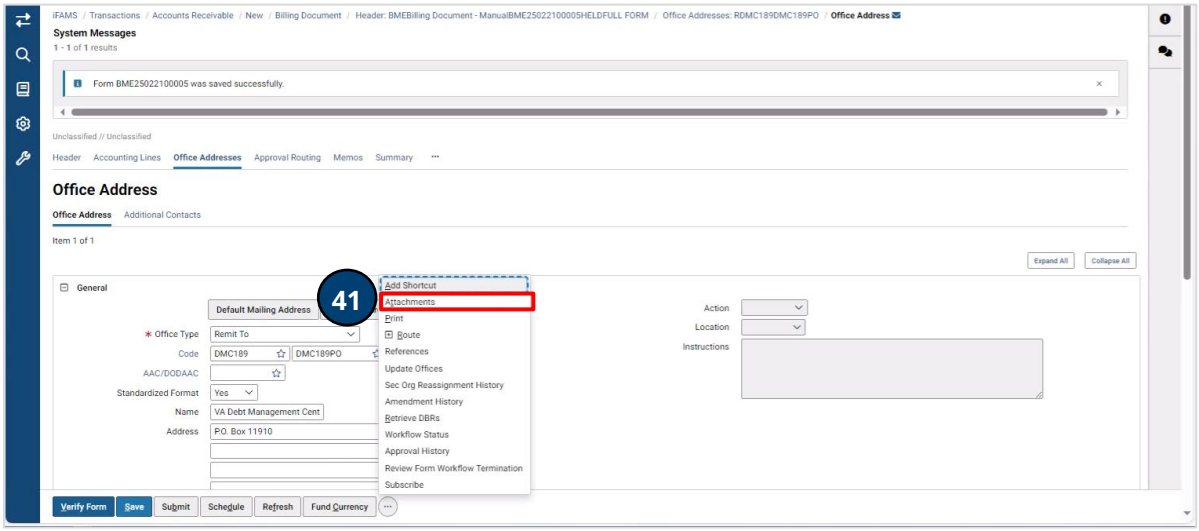
To complete the BME transaction in iFAMS, follow the steps below.

Section 4: Complete the BME Transaction

40. Click on the “Ellipsis” button.

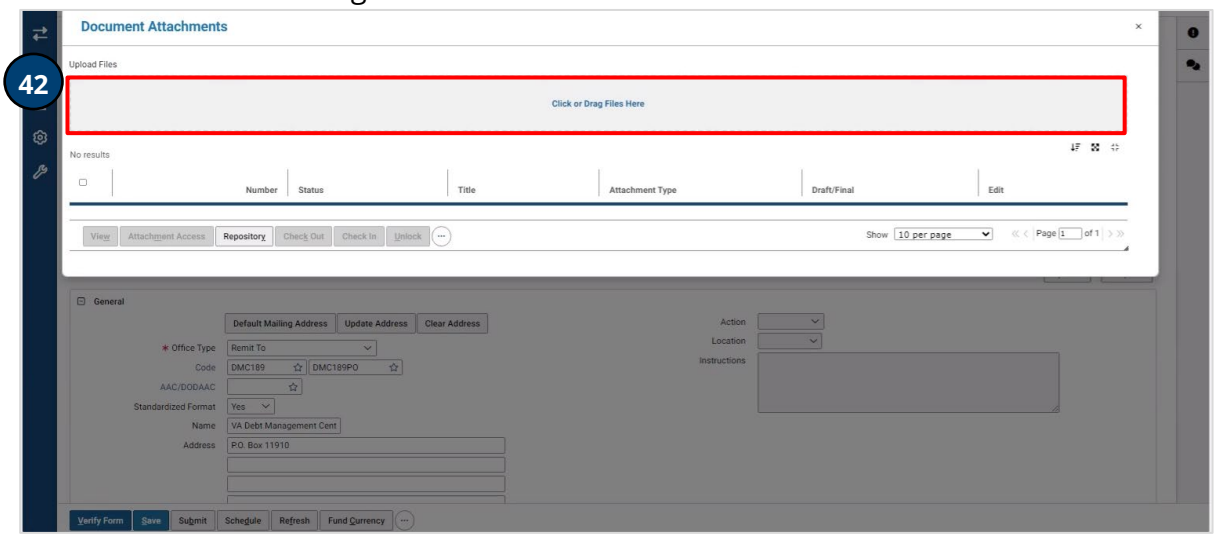


41. Select “Attachments” from the drop-down.

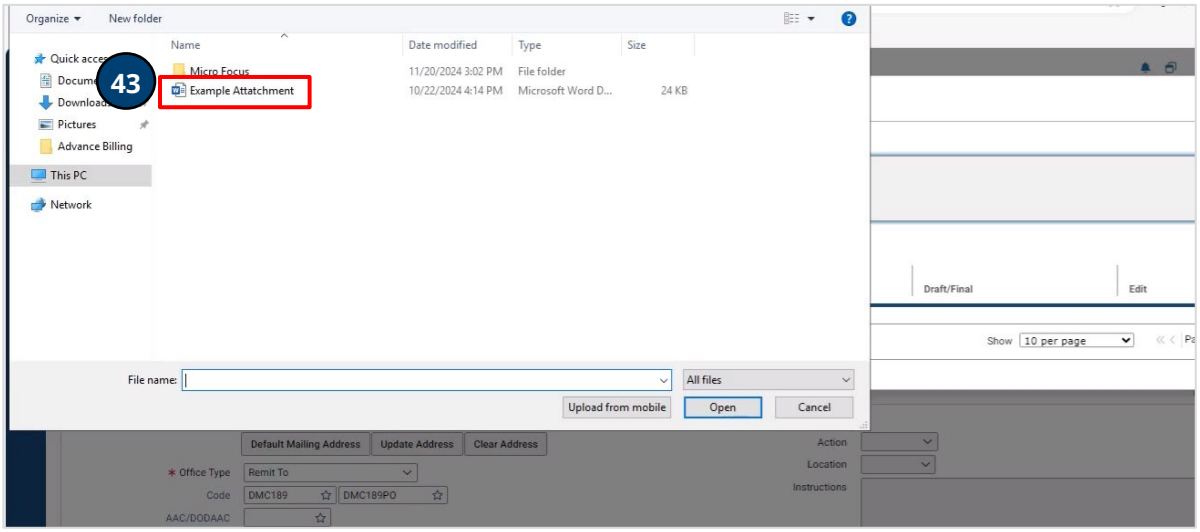


Section 4: Complete the BME Transaction

42. Click on the “Click or Drag Here” button.

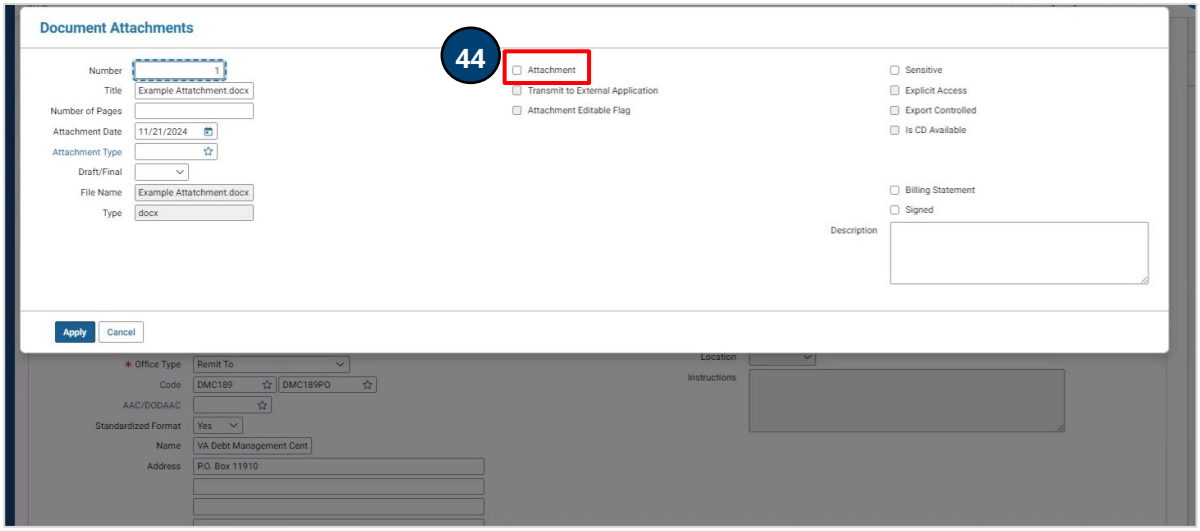


43. Select “Example Attachment”.

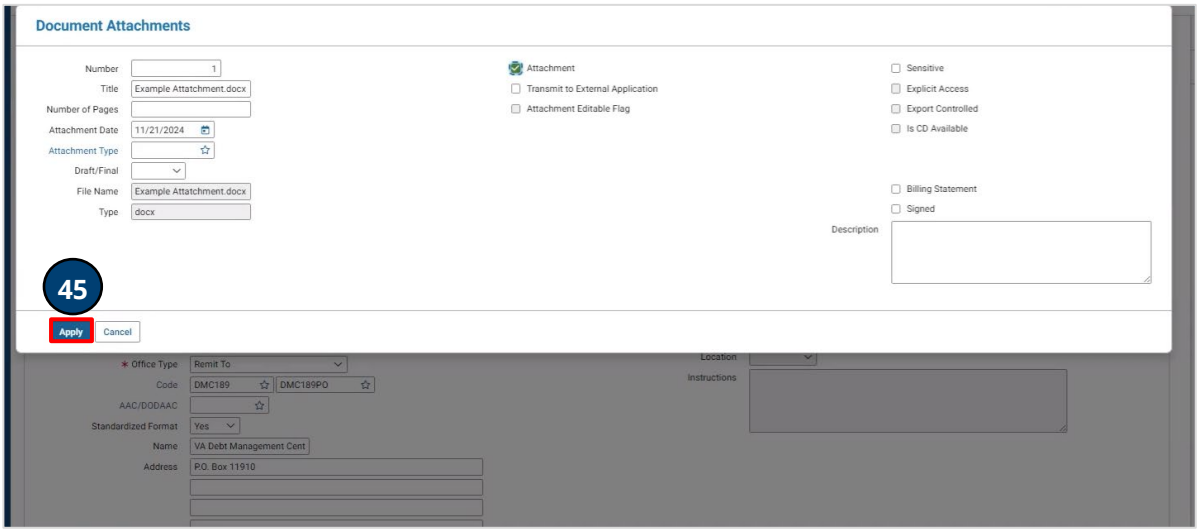


Section 4: Complete the BME Transaction

44. Click on the “Attachment” checkbox.

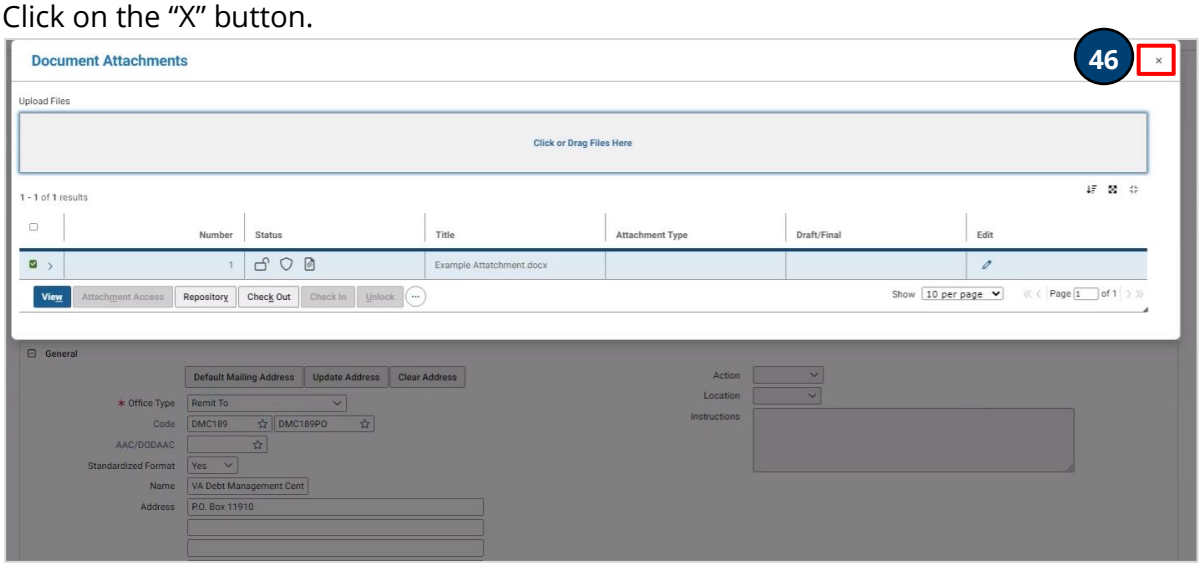


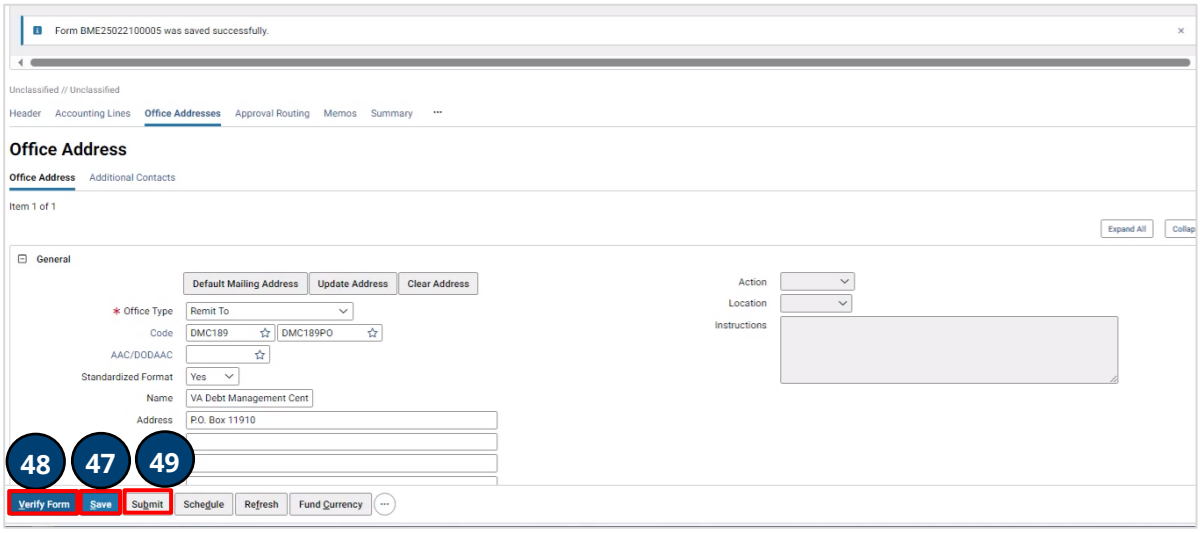
45. Click on the “Apply” button.



Section 4: Complete the BME Transaction

46. Click on the “X” button.





47. Click the “Save” button to save the transaction.
48. Click the “Verify Form” button.
49. Click the “Submit” button.
